

GOVERNMENT PROGRAMS COMPLIANCE POLICY

Title: Medicare System to Identify Medicare Compliance Risks				Policy No: 006	
Effective Date: 4/21/11					
Policy Applies to the Following Products with an "X";					
X	Medicare Part D (PDP) (as applicable includes Group)	X	Medicare Advantage and Part D (MAPD) (as applicable includes Dual-Special Needs Plan (D-SNP) and Group)	X	Medicare Medicaid Plan (MMP)
Owners:					
Kim Green		Government Programs Compliance Officer		Government Programs Compliance	
Approved:					
HCSC Board of Directors					
Purpose					
The purpose of this policy is to articulate Health Care Service Corporation's (HCSC) commitment to compliance with the Centers for Medicare & Medicaid Services (CMS) guidelines that require HCSC to adopt and implement an effective system for routine monitoring and identification of compliance risks. This system includes internal monitoring and audits and external audits to evaluate HCSC's compliance with CMS requirements and the overall effectiveness of the compliance program. This system extends to HCSC's first-tier, downstream, and related entities (FDRs).					
Scope					
This policy applies to HCSC employees who are involved in the administration or delivery of the government programs referenced in the Policy Application section above, including the chief executive and senior administrators, managers, temporary workers, governing body members, and FDRs.					
Policy					
HCSC is committed to complying with all CMS guidelines, including but not limited to those that relate to establishing and implementing an effective system for routine monitoring and identification of compliance risks.					
<u>Risk Assessment</u>					
The Government Programs Compliance (GPC) Department performs formal Risk Assessments for Medicare Advantage [including Dual Eligible Special Needs Plans (D-SNPs)] products at least annually.					
As risks change and evolve with changes in the law, regulations, CMS requirements, and operational matters, GPC will re-evaluate the potential risks of non-compliance and fraud, waste, and abuse (FWA) within the Medicare and MMP functions and will adjust the monitoring and/or auditing work plans as appropriate. Significant changes to the Risk Assessment, as determined by the Government Programs Compliance Officer (GPCO), will be reported to the Medicare Compliance Committee, the Corporate Compliance Committee (CCC), and the committee of HCSC's Board of Directors ("Board Committee").					
This Risk Assessment accounts for all Medicare and MMP business operational areas, including those performed by FDRs, for all Government Contract Holders. These operational areas will be assessed for the types and levels of risks they present to the Medicare and MMP programs and to HCSC.					
At a minimum, GPC considers the following factors when formally assessing risk on an ongoing basis:					
<ul style="list-style-type: none"> • External Factors <ul style="list-style-type: none"> ○ Risks of potential FWA, ○ Access to personally identifiable information/Probability of privacy or security breaches, ○ Regulator priorities and risk areas, and ○ Changes in laws or regulations. • Internal Factors <ul style="list-style-type: none"> ○ Designated ownership, ○ FDR relationship, and ○ Budget/Resources. 					

- Operations and Process Components
 - Policies and procedures,
 - Training,
 - Monitoring, and
 - Regulatory change management.
- Outcomes
 - Regulator actions imposed, and
 - Internal compliance history.

The GPCO or her/his designee(s) develop and regularly update procedures to score each Medicare and MMP function based on objective and subjective criteria. The Medicare and MMP operational areas are then ranked according to the resulting risk scores to determine which will present the most significant risks to the Medicare and MMP programs and impact on the respective Plan. Adjustments are made, as necessary, to the Risk Assessment and the Compliance Program monitoring activities. See Policy 007, Routine Monitoring and Auditing of Medicare Programs, for more detail regarding how the Risk Assessment results are used to drive the GPC monitoring and auditing activities and work plan for the coming year.

GPC works closely with Audit Services and other key business areas to develop appropriate monitoring, auditing, and other mitigation strategies based on the results of the Government Programs Compliance Risk Assessment and the Audit Services Risk Assessment.

The GPCO presents the results of the Risk Assessment to the Medicare Compliance Committee, the CCC, and the Board Committee at least annually, or more often as deemed necessary by the GPCO.

Definitions

Abuse: Actions that may, directly or indirectly, result in: unnecessary costs to a Government Program, improper payment, payment for services that fail to meet professionally recognized standards of care, or services that are medically unnecessary. Abuse involves payment for items or services when there is no legal entitlement to that payment and the provider has not knowingly and/or intentionally misrepresented facts to obtain payment. Abuse cannot be differentiated categorically from fraud because the distinction between “fraud” and “abuse” depends on specific facts and circumstances, intent and prior knowledge, and available evidence, among other factors.

CMS: Centers for Medicare & Medicaid Services.

Downstream Entity: Any party that enters into a written arrangement, acceptable to CMS, with persons or entities involved with the Medicare Advantage benefit or Part D benefit, below the level of the arrangement between a Medicare Advantage Organization or applicant or a Part D plan sponsor or applicant and a first-tier entity. These written arrangements continue down to the level of the ultimate provider of both health and administrative services. (42 C.F.R. §, 423.501).

First-Tier Entity: Any party that enters into a written arrangement, acceptable to CMS, with a Medicare Advantage Organization or Part D plan sponsor or applicant to provide administrative services or health care services to a Medicare-eligible individual under the Medicare Advantage program or Part D program. (42 C.F.R. § 423.501).

Fraud: Knowingly and willfully executing, or attempting to execute, a scheme or artifice to defraud any health care benefit program or to obtain (by means of false or fraudulent pretenses, representations, or promises) any of the money or property owned by, or under the custody or control of, any health care benefit program. (18 U.S.C. § 1347).

FWA: Fraud, waste, and abuse.

Government Contracts Holders: Applies specifically to the operations of any Medicare Advantage [including Dual Eligible Special Needs Plans (D-SNPs)], Medicare Part D, Medicare Medicaid Plans

(MMPs), held by Health Care Service Corporation, a Mutual Legal Reserve Company (“HCSC”) or any other HCSC subsidiary or affiliate that holds, either now or in the future a contract with CMS.

Government Programs: Operations of any Medicare Advantage, Medicare Part D, MMP, or Medicaid contracts.

GPC: Government Programs Compliance.

GPCO: Government Programs Compliance Officer.

MA: Medicare Advantage. A health plan offered by a private health insurance company as an alternative to traditional Medicare Part A and Part B services, plus Part D. Additional benefits are often added to the plan, such as dental, vision, and wellness services. Sometimes referred to as Medicare Part C since it combines Part A, Part B, Part D, and any additional benefits into a single plan.

MAO: Medicare Advantage Organization. Medicare-approved private health insurance company (subject to following the same rules set for traditional Medicare) offering a Medicare Advantage plan.

MAPD: Medicare Advantage and Part D (prescription drugs) combined benefit plan offered by a private health insurance company.

Medicare: The health insurance program for people:

- 65 or older,
- Under 65 with certain disabilities, or
- Of any age with End-Stage Renal Disease (ESRD) (permanent kidney failure requiring dialysis or a kidney transplant).

PDP: Prescription Drug Plan. Medicare insurance plan covering prescription drug costs offered by a private health insurance company. Available as a stand-alone service.

Related Entity: Any entity that is related to an MAO or Part D sponsor by common ownership or control and:

- Performs some of the MAO or Part D plan sponsor’s management functions under contract or delegation,
- Furnishes services to Medicare enrollees under an oral or written agreement, or
- Leases real property or sells materials to the MAO or Part D plan sponsor at a cost of more than \$2,500 during a contract period. (42 C.F.R. §423.501).

Temporary Workers: For the purposes of this policy, are defined as HCSC contingent workers classified by HCSC’s Procurement and Support Services area as “Staff Augmentation” or “Independent Contractors.”

Waste: Overutilization of services, or other practices that, directly or indirectly, result in unnecessary costs to the Medicare program. Waste is generally not considered to be caused by criminally negligent actions but rather the misuse of resources.
